

Autobiography

I, Bayduisenova Togzhan, was born on January 03, 1984 in the city of Kentau, Shymkent region. In 1991, I went to the Kazakh secondary school No. 6 named after A.S.Pushkin. In 2001, after graduating from school, entered the Kazakh-Turkish University named after H.A. Yasavi, majoring in Biology, from which I graduated in 2005. In the same year, enrolled in a master's degree in Biology at the Kazakh-Turkish University named after H.A. Yasavi, which I successfully graduated from in 2007. Since September of the same year, I was accepted as a teacher in the Department of Biology at the Shymkent Institute of the Kazakh-Turkish University named after H.A. Yasavi.

In 2010, I defended my PhD thesis on the topic: "Selection and genetic aspects of the breeding of Karakul sheep of the jacket-smush type with various degrees of karakul".

2008-2012. worked as a teacher, then as a senior lecturer at the Department of Biology, Academic Innovation University.

From 2012 to 2020, Senior lecturer at the Department of Biology of the Regional Social Innovation University, from 2020 to 2022, senior lecturer at the Department of Chemistry and Biology of Shymkent University.

Since September 2022, I have been working as a senior lecturer at the Biology Department of South Kazakhstan State University.

Married, 3 children.
